President's Message

Dear Sir/ Madam,

It gives me great pleasure to announce that the Kanara Industries Association is organizing Kanara – EIT 2026 on 1st, 2nd & 3rd May 2026 at Karavali Exhibition Ground, M.G. Road, Ladyhill, Mangalore.

Kanara – EIT 2026 is envisioned as a dynamic platform to showcase industrial innovation, emerging technologies, products, and services from entrepreneurs and enterprises across the region. The Expo aims to strengthen industry connect, promote business collaborations, and create new opportunities for growth and market expansion.

I invite entrepreneurs, industries, startups, institutions and stakeholders to actively participate and leverage this platform to network, collaborate, and explore new business avenues.

Let us come together to celebrate innovation and drive industrial progress in our region.

Yours truly,

Sd/-

ABOUT KANARA ENGINEERING INDUSTRIAL TECH 2026

KANARA Industrial Expo 2026 is a premier international trade show dedicated to the industrial sector, scheduled to be held from 01st to 03rd May 2026 at Karavali Ground, Ladyhill-Mangaluru.

This landmark event will feature a diverse showcase of industrial machinery, advanced technology solutions, automation components, and engineering services from across India and abroad. As the largest industrial exhibition in the region, the Expo brings together leading industry professionals, innovators and manufacturers to promote growth and drive innovation. It offers an ideal platform for networking discovering new business opportunities, and exploring the latest technological advancements shaping the future of industry.

Growth & Development

Participate in a platform that supports the advancement of the industrial sector in India.

Cutting-Edge Innovation

Discover groundbreaking developments in industrial tech and automation that are shaping the industry's future

Comprehensive Solutions

Access everything from CNC machines and power tools to pollution control systems and warehousing solution all under one roof

Networking Opportunities

Engage with industry leaders, decision-makers and business partners to build meaningful collaborations

Explore Solutions

Explore a wide array of industrial products, including machinery, automation and cutting-edge technology from top manufacturers

International Participation

Connect with exhibitors and visitors from around the world and stay updated on global market trends and innovations

Why You Should Exhibit at KANARA ENGINEERING INDUSTRIAL TECH 2026

Network with Industry Expert : Engage with top-level industry professionals and decision-makers to gain valuable insights and build long-term strategic relationships

Explore New Market : Tap into new and emerging markets by connecting with prospective clients, distributors, and business partners seeking industrial solutions.

Enhance Your Profile : Showcase your brand to budget decision-makers, buyers and influential leaders from across industrial sectors, boosting your visibility and market credibility.

Job Fair : Showcase your company to top recruiters, HR leaders and industry professionals, enhancing your reach and brand value.

Trading Firms & Resellers

Other Miscellaneous Industrial Products

Medical & Allied Products

Visitor's Profile - KANARA ENGINEERING INDUSTRIAL TECH 2026

- Industrialists & Top Executives of Manufacturing & Engineering Enterprises
- Technical Experts, Engineers, Technocrats & Scientists, Engineering & ITI Students
- Decision Makers from Purchase, Plant, Marketing, Sales, R&D, Production & Maintenance Department from Private & Public Sectors
- Various Industrial Association Members & Representatives
- Government Delegates and officials
- Industrial & Commercial Traders
- Industrial Consultants and Contractors
- Engineers and Technicians working in **KANARA EIT** Mangaluru and adjoining Industrial Areas

The Kanara Industries Association (KIA) was established in the year 1978 with an objective to encourage entrepreneurs in industrial area Baikampady, Mangalore and promote the interest of the trade and industry in the coastal region of Dakshina Kannada. Today it is one of the primary bodies in this region to represent all industries. The association has over 4 decades of leadership record and over 500 active members contributing significantly to the overall growth of the region. The members of the association provide employment to around 20,000 people in the Dakshina Kannada region in sectors like Automobile, pharmaceutical, plastic, rubber, engineering industries, Agri and food processing etc. with a significant contribution to exports and the exchequer.

KIA has played a crucial role in the region by interacting with Government departments in suggesting and implementing various Government Schemes. It has been a catalyst in implementing several projects under ASIDE SCHEMES. In the year 2020 KIA was chosen

one among the 19 Industry Clusters to drive the skill development under the Government's STRIVE program and has actively started implementing it contributing to employment generation and retention of skilled labour in the District.

KIA is committed to clean and environment friendly manufacturing practices. Every single road is covered with a variety of trees, nurtured and protected. The Association is also committed to rejuvenate the Bagundi Lake and has been working towards restoring the ecology of this huge water body adjacent to the Area.

Setting up multi level industrial Sheds, an Exhibition Centre, Logistic Park and a common ETP and Solid Waste Management Plant and making available new Industrial Plots to the MSMEs, pursuing Govt. of Karnataka to notify the Baikampady Industrial Area as special Investment Region (SIR) are the thrust areas of the future. **“We are on a mission to ESTABLISH RELATIONSHIP, EXPAND BUSINESS”**

Inauguration ceremony of renovated C. N. Shetty Convention Hall, which was graciously inaugurated by **Sri U. T. Khader, Hon'ble Speaker of the Karnataka Legislative Assembly**

Kanara Industries Association (KIA) organized a one-day Vendor Development Program (VDP) workshop for MSME's under the RAMP Scheme on 11th February 2026.

Kanara Industries Association (KIA) has been selected as one of the three Industrial Clusters (IC) in Karnataka under the STRIVE (Skills Strengthening for Industrial Value Enhancement) project funded by the World Bank. Under this initiative, KIA-IC will train apprentices and facilitate the placement of youth in various industries across Dakshina Kannada. More than 80 industries under KIA-IC have extended their support to place apprentices in their establishments. So far, 350 apprentices have already been placed in different establishments in the Baikampady Industrial Area.

Chairman's Note

MR. N. ARUN PADIYAR
Chairman, Kanara EIT 2026
Immediate Past President

Mangalore has long been recognised for its fisheries and cashew industries, but our city is also home to a strong and evolving engineering ecosystem, one that many within our own district are not fully aware of. Kanara Engineering Industrial Tech Expo 2026 is a step towards showcasing this strength to our community and to regions beyond.

This Expo reflects a long-held vision to bring our industries together on a common platform and demonstrate that Mangalore can host professional industrial exhibitions of high standards, creating new opportunities for growth and economic development in our region. I warmly invite industries, innovators, and entrepreneurs to participate and help make this event a proud milestone for Mangalore's industrial future.

MR. SHARATH RAVI
Chairman, Programme cell
